# FROM PRINCIPAL'S DESK

Dear Readers,

"Wish you all a Happy & Blessed Navratri."

Prayers to the Almighty for the whole AVN Fraternity, students & parents for their well being and prosperity.

The month of examination and the month of festivity fervor. I wish the students of AVN to flourish in every aspect and come out with flying colours at the end of Term-I examination, I also wish them to enjoy the colours of life through this beautiful festival of lights and colours "Navratri."

These nine days have various lessons of life for the students, dear students, it is not necessary that every time you will get everything in the books. At times the celebrations of life also lead us to learn many things. Nine long days of worshipping Maa Durga and having fun also gives us lessons to learn:-

1. It emphasizes the importance of efforts and hard work to improve their studies and their overall growth.
2. One must have a clear goal and work towards achieving the goal. The lesson here is to have a strong determination and singular mindset to work in the direction of their dreams.
3. Students have creative powers within them only those who are willing to devote their energies to enthusiasm can achieve great success.
4. Students must learn to respect and treat others with kindness and respect.
5. An important lesson to learn would be to be kinder to each other.
6. Learning new things, spreading love and living a selfless life are a few things that students can learn from the ninth-form goddess Durga.
7. A student must be fierce and courageous.
8. An important lesson to be learnt here is that we must always strive to be righteous in our actions in the face of adversities.
9. Whether it is giving exams or studying, having a calm mindset can significantly help students develop better concentration, which will greatly improve their academic growth.

Enjoy the festival with full enthusiasm but also I believe one way or the other way, all the students of AVN will be following these nine lessons and implementing them in their lives too.

Children enjoyed cherishing the journey of AMUL with a historical documentary film. Children were enriched with the pasteurisation of milk. Packing and manufacturing of milk, butter, ghee, cheese, AMUL ice cream and many more products. We had our goosebumps after acknowledging the efforts taken after just a packet of milk. We are really thankful to the sector for this opportunity. We proudly say our country has this wonderful gem: 'THE AMUL.'

Many more to cherish and experience !
